Animal and Plant Health Inspection Service

Title: Foreign Quarantine Notices.

OMB Control Number: 0579–0049.

Summary of Collection: Under the Plant Protection Act (PPA) (Title IV, Pub. L. 106–224, 114 Stat. 438, 7 U.S.C. 7701–7772), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of plants and plant products to prevent the introduction of plant pests into the United States. Regulations governing the importation of fruits, vegetables, plants for planting, logs, lumber, unprocessed wood products, cotton, corn, rice, sugar cane, and coffee are contained in 7 CFR part 319 and part 352. Implementing the laws through regulations is necessary to prevent injurious plant and insect pests from entering the United States and creating serious physical and economic consequences for U.S. agriculture.

The regulations and subsequent requirements are enforced by the Animal and Plant Health Inspection Service (APHIS) and require the collection of information verifying oversight and inspection of the growing, handling, packing, transporting, and importing of fruits, vegetables, plants for planting, logs, lumber, unprocessed wood products, cotton, corn, rice, sugar cane, and coffee into the United States. The information is collected from businesses, individuals, and foreign government officials, via forms, labels, certifications, and other formats. On a quarterly basis, APHIS will submit a report to the Office of Management and Budget that documents the burden imposed by import requirements for commodities covered by this information collection (fruits, vegetables, plants for planting, logs, lumber, unprocessed wood products, cotton, corn, rice, sugar cane, and coffee) that have been finalized within that quarterly period.

Need and Use of the Information: APHIS will collect information such as operational workplans; cooperative service agreements; trust funds; production or processing site/facility

registrations; foreign site certification of inspection and/or treatment; applications for permits; appeals of denial or revocation of permits; requests for additional mailing labels; compliance agreements; phytosanitary certificates; labeling; importer documents; agreements for post entry quarantine State screening notices; 30-day article notifications; requests for emergency transshipment or diversion; notices of arrival; emergency action notifications; and monitoring/recordkeeping from responsible entities. In addition, APHIS will collect required information from national plant protection organizations as part of the commodity import approval process. If this information is not collected, APHIS' ability to safeguard the United States from injurious plant and insect pests from entering the country would be severely compromised.

Description of Respondents:

Businesses, Individuals and Households, National and State Governments.

Number of Respondents: 22,353.

Frequency of Responses: Reporting, Recordkeeping, Third-Party Disclosure: On occasion.

Total Burden Hours: 550,363.

Ruth Brown,

Departmental Information Collection Clearance Officer.
